

JAKE RUSSEL L. MERLIN

SOFTWARE DEVELOPER

ABOUT ME

I'm passionate developer with experience in web development, software engineering, machine learning, cyber security and data analytics. I built full-stack applications using Laravel, Django, and React, focusing on scalable and user-friendly solutions. I also apply data analytics and security best practices to ensure reliable systems. Additionally, I've built Arduino projects like automated fish feeders and sensor-based systems, combining hardware and software to solve real-world problems. I'm always eager to take on new challenges that push my technical boundaries and create meaningful impact.
